DETAIL ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as following:

In the claim, claim 4, line 3, delete "first" before "NPN".

The above noted amendment has been added in order to provide a clarification in claim language.

Reasons For Allowance

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a drive device for controlling a light emitting diode via a current mirror circuit by comprising a reference source, a current mirror circuit, which generates a load current equal to a fraction of an actual current through the light-emitting component, and a regulating device having a first input and a second input, the first input being coupled to the current mirror circuit and the second input being coupled to the reference source, the regulating device generating a regulation signal that regulates the actual current through the light-emitting component in such a way that a difference between the desired current and the actual current is minimized as required in claim 1 or the regulating device includes means for generating a regulation signal on the output terminal based on a difference between a load current and the current generated from the reference source as required in claim 14, and more specific components constructed the current mirror circuit in a manner as required in claim 18.

Art Unit: 2821

4. The remaining dependent claims are allowable for at least above reason.
5. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. Ames et al. (US Pat. 6,661,817) laser diode monitoring via current mirroring. Gul et al. (US Pat. 6,424,204) discloses current mirror circuit. Brokaw et al. (US Pat. 5,982,201) discloses low voltage current mirror. None of cited/recorded prior arts stands alone or combination with others discloses all limitation required in claim invention.

Correspondence

Any comments considered necessarily by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
